*HOMI Fashion & Jewels is an opportunity to scout new trends*

A strong draw for retailers and multiples across the fashion and jewellery horizon, the show presents a vast selection of contemporary jewellery honed in silver, brass and non-precious metals, incorporating red Mediterranean coral, cameos, amber and other unusual materials.

"HOMI Fashion & Jewels presents an outstanding selection of cutting-edge fashion and contemporary jewellery," show director Filomena Sannino told Jewellery Outlook.

The show featured a seminar programme identifying key 2023/24 jewellery and fashion design trends, such as statement bracelets and earrings, body jewellery, maxi chains and sculptural jewellery; and jewel-encrusted handbags.

The next edition will be rebranded as **Milano Fashion & Jewels**, and will take place from February 16-19, 2024.
