HOMI Fashion&Jewels Exhibition, an event dedicated to fashion jewellery and accessories, has been postponed to **March 11-14, 2022**, at the **Fiera Milano** Rho exhibition centre.

"All fashion and accessory shows have been moved to March in order to meet operators from around the world in the best possible manner and offer more buyers the opportunity to participate," **Fiera Milano** said.

MICAM Milano, the international footwear trade fair, **MIPEL**, an international event for leather goods and accessories, and **THE ONE MILANO**, an haut-à-porter show, initially due to take place in February, have been moved to **13-15 March 2022**, while the **HOMI Fashion&Jewels Exhibition** will partially overlap with these dates, being scheduled to take place from 11 to 14 March.

"This new schedule, requested by the market and by industry operators, aims primarily at creating a platform that brings together the entire fashion system and offering the international audience of professional visitors a single, great business opportunity at a time of greater serenity," **Fiera Milano** said.
