The event dedicated to fashion *accessories*, clothing and jewellery is set for the September edition with new areas and restyled itineraries for visitors. Both the collaboration with Poli.Design and the schedule with talks and fashion shows are confirmed.

Ziio Jewels

Milan, June 2023. **Homi Fashion&Jewels Exhibition**, a trade fair dedicated to **fashion accessories, clothing and jewellery**, returns with a new edition from **15 to 18 September** at **Fieramilano** (Rho).

Several new features will be added that give value to offerings by Italian and foreign brands through an **original and evolving format**. This edition will see the presence of **more than 500 brands, 35% of them from abroad**, that will display their fashion accessories and jewellery collections for the Autumn/Winter 2023 season, but also some previews of the upcoming Spring/Summer 2024.

A very rich proposal that in September will be structured in two areas, **JEWELS and FASHION**, in order to favour an increasingly clear, defined and immediate participation.

The **JEWELS** section, in addition to showcasing brands ranging from *fine jewels* to *fashion jewellery* and interpreting *trends* with distinctive taste and personality, will host a new section dedicated to **Contemporary Jewels**.

This will be a space entirely reserved **for contemporary jewellery**, where the crossover between design and fashion is expressed in a significant way, thanks to the use of innovative materials and processing techniques.

The **FASHION** area will feature a **Fashion Accessories** section with a focus on accessories designed to enrich and complete outfits for an 'all-round' style, while *ready-to-wear* clothing will be located in the **Fashion Apparel** section, with original proposals and combinations.

September

HOMI Fashion&Jewels Exhibition is a hub for discovering **future trends**, featuring two distinct areas, in cooperation with Poli Design:

Design Direction, a multimedia pathway anticipating the next two years for jewelry and fashion accessories; and **Visionaires**, which will welcome offerings of designers who best interpret the season's must-haves and trending colors with innovative proposals in terms of materials, shapes, styles and colors.
